# KYC (Know Your Customer) 인증하기

The image shows a mobile application interface for KYC verification. At the top, there is a progress bar with two segments, the first of which is blue. Below this, a white card contains the title "Select type and issuing country of your identity document". The first section, "Issuing country \*", features a dropdown menu with "South Korea" selected and a red rectangular highlight around it. The second section, "Document type \*", contains three radio button options: "ID card", "Passport", and "Driver's license", all of which are currently unselected. At the bottom of the card is a blue "Next" button. Below the card, the text "Powered by" is followed by the "sumsub" logo and name.

Select type and issuing country of your identity document
